Genovese-type chains

Genovese-type chains. AISI 304 / A2. Compare diameters and configurations in the table.

Material

AISI 304 / A2

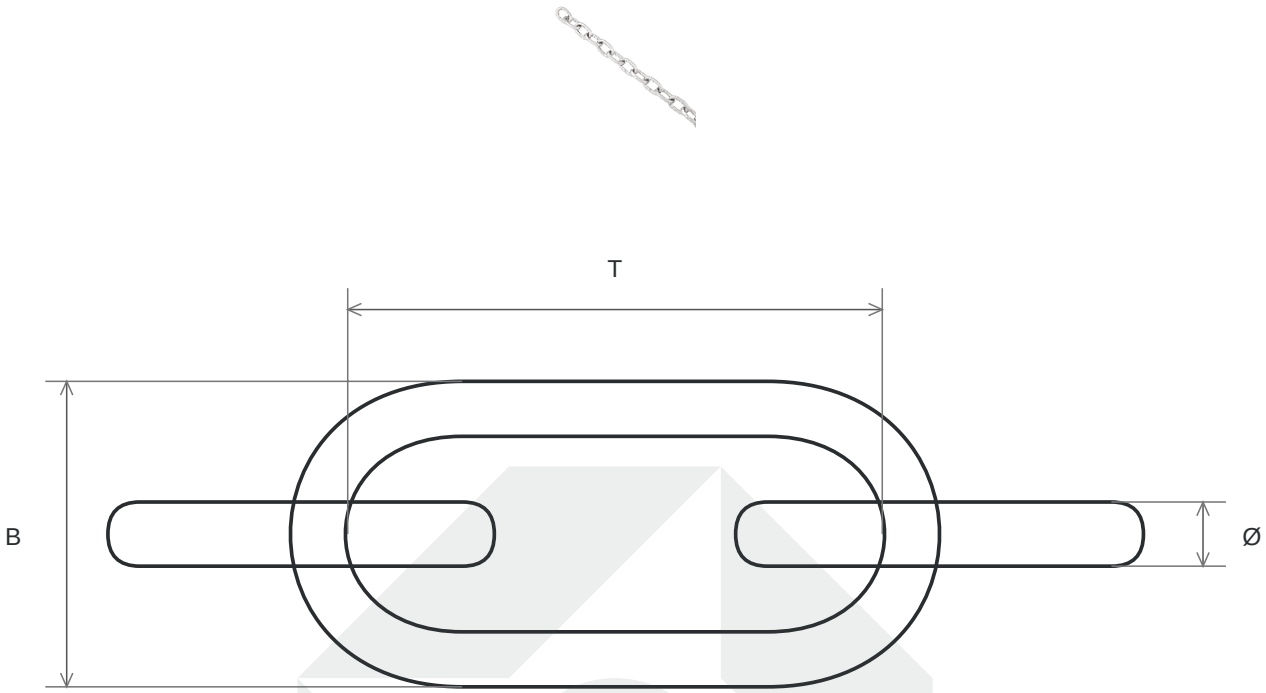

Not suitable for lifting.

Variants and dimensions

Ø (mm)	B (mm)	T (mm)	Weight (g/m)	Indicative working load (kg)	Breaking load (kg)	Bundle (m)
2	9	14	72	25	120	50
3	13	19	170	55	320	50
4	16	20,5	300	100	630	50
5	19,5	23	482	160	1000	40
6	23	28	686	200	1250	30
8	30,5	35	1250	400	2500	22

Dimensions and loads apply to each individual configuration. Confirm availability and supply length.

Technical drawing

Dimensions in mm unless stated otherwise. Illustrative drawing, not to scale. Indicative source data; confirm the configuration in the enquiry. Ø: wire diameter; B: outside link width; T: inside link length. Weight in grams per metre; bundles in metres. AISI 304 per the specific source sheet for these item codes. Indicative catalogue working loads are separate from breaking loads. Do not use these articles for lifting equipment, slings, load support or fall-protection systems. Breaking loads are not working loads.
