Wire rope thimbles

Wire rope thimbles in AISI 316 stainless steel. Compare rope diameter, dimensions and configurations in the table.

Material

AISI 316 / A4

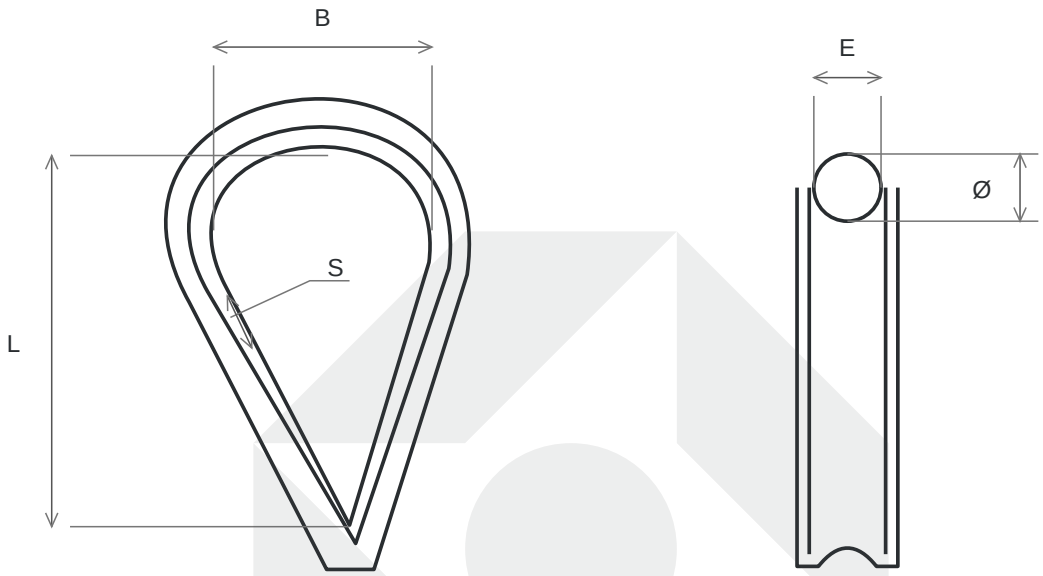

Variants and dimensions

Rope Ø (mm)	B (mm)	L (mm)	E (mm)	S (mm)
2	7	10	2	1
2,5	8	14	2,5	1
3	10	17	3	1
4	11	18	4	1
5	13	20	5,6	1,2
6	15	25	6,5	1,2
8	18	33	9	1,5
10	23	46	11	2
12	27	48	14	2
14	34	53	15	2,5
16	36	57	17	3
18	40	67	19	3
20	45	75	22	4
22	52	84	24	4
24	56	96	26	5

Indicative thimble dimensions. No assembly load rating is declared.

Technical drawing

Dimensions in mm, except metric thread M. Illustrative drawing, not to scale. Confirm dimensions and configuration in the enquiry. Ø: rope diameter; B: inside width; L: inside height; E: groove width; S: sheet thickness. Thimbles protect the rope eye; strength depends on the complete termination. These are not certified fall-protection devices.
