90° tee handrail fittings

90° tee handrail fittings in polished AISI 316 stainless steel. Compare tube-socket diameters and overall dimensions for the handrail configuration.

Material

AISI 316 / A4

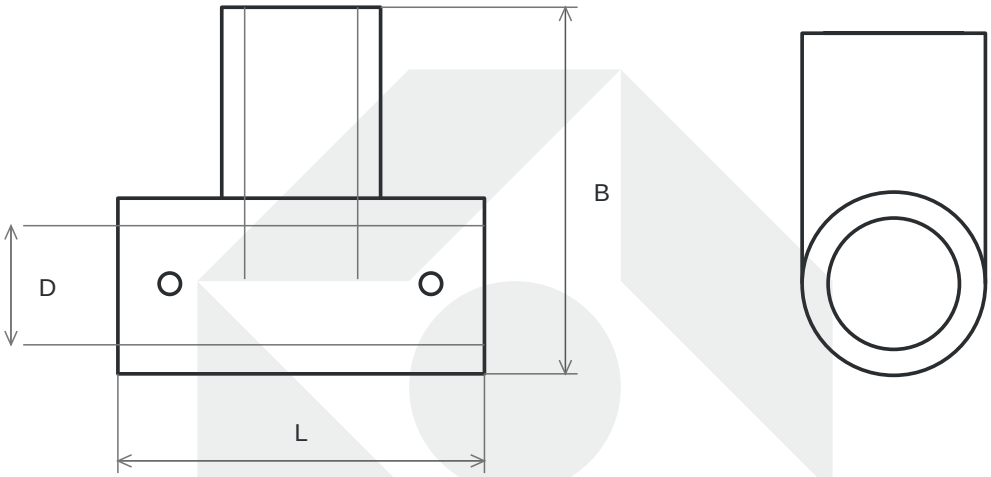

Variants and dimensions

B (mm)	D (mm)	L (mm)
50	23	50
53	26	53

Socket inside diameters do not necessarily equal nominal tube sizes. Verify fit and fastening; dimensions may vary between batches.

Technical drawing

Dimensions in mm, except threads. Illustrative drawing, not to scale. Check the delivered product before drilling. D: tube-socket inside diameter; L: through-body length; B: overall height.
