Manual hand swagers

Manual hand swager with integrated cutter and adjustable compression. Length 600 mm; six documented rope diameters.

Material

Special-steel jaws; rubber grips

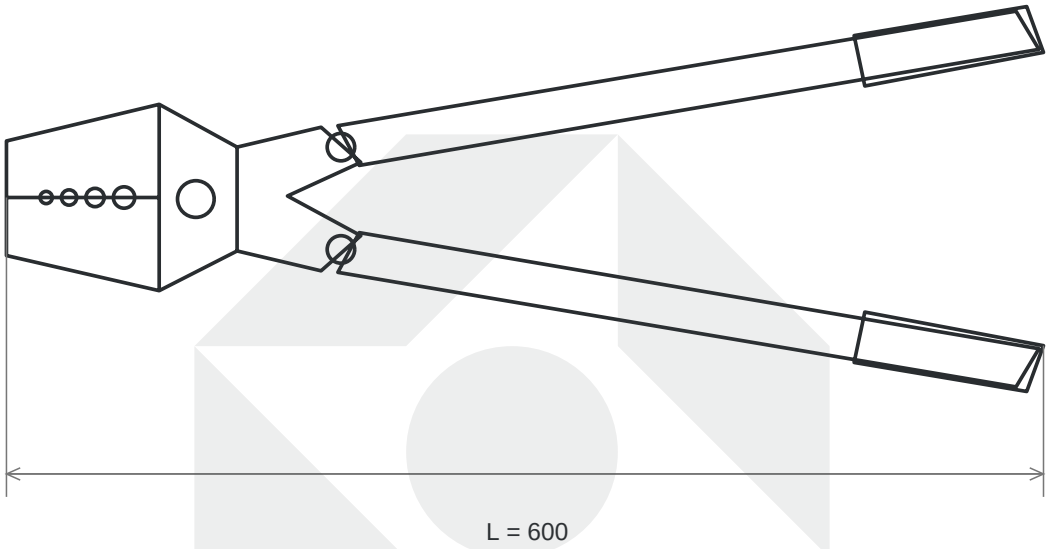

Variants and dimensions

Rope Ø (mm)	L (mm)	Max rope cutting Ø (mm)
1,5	600	6
2	600	6
2,5	600	6
3	600	6
4	600	6
5	600	6

Specify the tool, rope, ferrule or terminal and die in the enquiry. Compatibility must be checked for the complete system.

Technical drawing

Illustrative drawing, not to scale. Dimensions in mm unless stated otherwise. This does not replace the operating instructions supplied with the tool. L: nominal length 600 mm. The six table sizes are rope diameters accepted by the same tool. High-frequency/temperature-treated jaws, rubber grips and fine swaging adjustment. Integrated cutter up to Ø 6 mm: cutting capacity does not extend the listed swaging diameters. Confirm ferrule type and dimensions.
