B12 hydraulic hand crimping tool

Portable tool for swaging wire-rope terminals and ferrules. Maximum force 70 kN; dies must be ordered separately.

Material

Steel

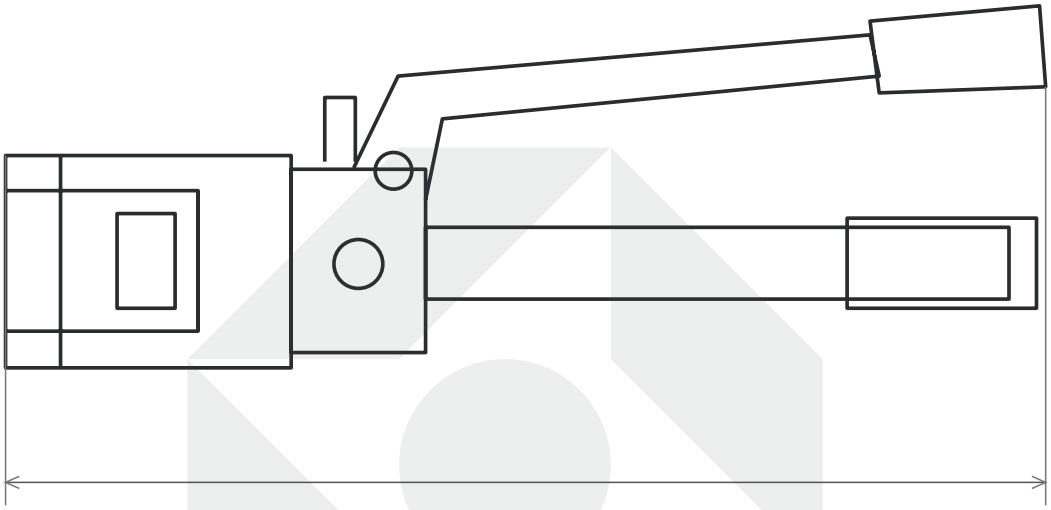

Variants and dimensions

Model	L (mm)	Max force (kN)	Weight without case (kg)
B12	480	70	4

Specify the tool, rope, ferrule or terminal and die in the enquiry. Compatibility must be checked for the complete system.

Technical drawing

Illustrative drawing, not to scale. Dimensions in mm unless stated otherwise. This does not replace the operating instructions supplied with the tool. L: length 480 mm. Crimping force up to 70 kN (force, not pressure); weight 4 kg without case. Case and spare seals included; dies sold separately. Source-recommended oil: Shell Tellus T15. Tool force is not the load rating of the crimped termination. Do not operate without dies; follow the manual for assembly, limits and crimp inspection.
